

# Longer Lasting Cylinders - Industry Proven !

## Air & Hydraulic Cylinders (NFPA & Metric) 1½" to 24" Bore (32 mm to 500 mm Metric)

Aluminum Air Cylinders

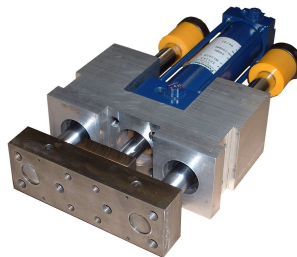

Steel Air & Hydraulic Cylinders

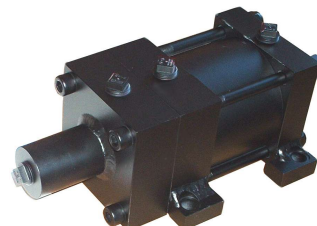

Mill Cylinders

Welded Cylinders

Pneumatic Slides  
& Die Lifters

Booster Cylinders

NFPA & Metric  
Cylinder Accessories

### Peninsular Cylinder Company

For over 50 years Peninsular has been manufacturing pneumatic and hydraulic cylinders for OEM and MRO applications that require top performance and extended service in destructive manufacturing applications

### Cylinder Head Proximity Switch Sensing

- In-port cylinder head mounted RF Output proximity switch sensing without spacers underneath the switch.
- Same switch probe length at each cylinder end.
- Constant air gap between switch probe and sensing target (piston cushion) creates reliable and repeatable stroke-to-go.

### Piston Magnet Sensing

Improved high gauss magnetic piston sensing for tie rod mounted sensors can sense anywhere along the cylinder stroke. Stronger magnetism outside of the cylinder tube ensures actuation of the reed switch.

ISO  
9001:2000  
Registered

- \* Hydraulic Cylinders - (NFPA & Metric) High & Low Pressure
- \* Air Cylinders - (NFPA & Metric) Heavy, Medium & Light Duty
- \* Custom Cylinders - (Non-Standard) for Specific Applications
- \* Air / Oil Tanks & Hydraulic Reserve Tanks
- \* Tandem Cylinders
- \* Corrosion Resistant Cylinders
- \* GM, Ford & Chrysler Standard Cylinders
- \* Repairs & Rebuilds - All Makes & Models
- \* Air-Powered Slides, Lifters & Radial Motion Clamps
- \* Quick Delivery & Courteous Customer Service
- \* Over 50 Years of Proven Cylinder Experience
